

Digital products engineered to perform.

LB CodeBase is a high-fidelity digital engineering agency founded by Wajid Hussain. We unite cinematic design, dependable engineering, and commercial strategy to build digital experiences that feel premium and work hard.

OUR POSITION

Design precision. Technical authority.

From first concept to production launch, our multidisciplinary team owns the details that shape clarity, speed, trust, and conversion.

UPTIME RELIABILITY

Core capabilities

Strategy through delivery

01

Web Engineering

Responsive websites and web applications built for accessibility, maintainability, and speed.

02

Commerce Systems

Shopify, headless commerce, product discovery, and conversion-focused storefront delivery.

03

Product & UI/UX

Research-led flows, scalable design systems, prototypes, and polished interaction design.

04

Brand Experience

Visual direction, identity systems, product imagery, and cohesive digital brand expression.

05

Cloud & Automation

APIs, workflow automation, integrations, CI/CD, and resilient infrastructure planning.

06

Technical Consulting

Architecture reviews, performance roadmaps, stack selection, and delivery advisory.

Built across commerce, services, and premium brands.

A focused selection of platforms delivered through product thinking, design craft, and performance-minded engineering.

HEADLESS COMMERCE

Vogue Decor

Commercial furniture storefront combining React, Shopify, and Storefront API architecture.

LEAD GENERATION

American Dream Auto Protect

Responsive vehicle-protection platform with a clear, conversion-focused quote funnel.

LUXURY PORTFOLIO

Pedro Clavero Design

Editorial events portfolio delivered in Framer with CMS, motion, and responsive design.

SHOPIFY MARKETPLACE

Zeroma

Fast product discovery and reliable commerce flows for a growing multi-category marketplace.

PREMIUM RETAIL

Noor Gemstone

A trust-led gemstone storefront presenting high-value products with clarity and detail.

BRAND COMMERCE

Zaroo Fragrances

A refined fragrance storefront pairing luxury art direction with a smooth purchase journey.

How we deliver

Discover

Goals, users, constraints.

Design

Flows, systems, prototypes.

Build

Production-grade delivery.

Optimize

Measure, refine, scale.
